Libraries Super Wi-Fi Pilot Facts

- Four libraries selected
 Kansas City, Kansas Public Library
 Lawrence Public Library
 Manhattan Public Library
 Topeka & Shawnee County Public Library
- Libraries conduct a four month long test of TV Whitespace technology
- Testing should begin by late September 2013
- Faster speed than a T1
- The actual throughput will depend on distance and obstructions. Connectivity will not be super fast. Basic broadband is the metric.
- User speed will be determined by the number of simultaneous users
