

MiFi Pilot Participants

November 2015

This project is made possible by a grant from the U.S. Institute of Museum & Library Services.

Agenda

- **End of Pilot Transition**
- **Promotion/Survey/Statistics** – Thanks to all who have been catching up.
You've circulated **2,467** devices in 10 months!

End of Pilot Transition

Adrian Roark is your Verizon contact:

913-344-2013

adrian.roark@verizonwireless.com

End of Pilot Transition

Things you need:

- Assumption of liability form
- Verizon contract in your name

Things to do:

- Work with Adrian if you want dashboard access to manage your devices
- Inventory your devices to be sure your records match Verizon's.
- Be sure you understand the time frame and schedule for migration of devices to your account
 - Some downtime will be involved
 - You may need hands-on access to devices at a specified time

Promotional Materials/Patron Survey/Monthly Statistics

- Remember to report your monthly circulation stats here:
<http://kslib.info/FormCenter/Online-Forms-4/MiFi-Library-Statistics-60>.
- July and August stats needed for 1 library
- September stats needed for 2 libraries
- October stats needed for 6 libraries
- We will need and collect November stats, and then close out reporting
- Remember to send patron evaluations
(<http://kslib.info/DocumentCenter/View/3870>) to Jeff **through the end of November.**

This is our final meeting!

Current data plans will be paid for by SLK through December 2015.

As we begin the final evaluation process and get guidance from the grantor, we may come back to you with information requests or questions.

A simple narrative covering key points of your experience, opinions, and reasons for continuing or discontinuing the service would be invaluable and appreciated.

Thank you for being part of this project –
It's been informative and a real pleasure to work with you!
